Dear Parent/Carer

Revised timetable for learning at home - Year 10

I am pleased to provide you with more information about the developments we have made to the way we are providing work from next week. Following feedback from parents on our recent online survey, we will be making the work hopefully more straightforward for your child to access. From Monday 27 April, we will move away from use of Go4schools to provide your child with resources for their learning and will be arranging a new Google Classroom for all of our subject classes. The reason for this decision is it will mean all of the resources will be available in one place and Google Classrooms allows easier communication between students and their teacher. If you need any help with accessing Google Classroom, please see the user guide on our website or email Mr Pulford (michael.pulford@tla.school).

In response to a number of concerns about the quantity of work being set for your children we have introduced a new timetable that includes two lessons of a core subject (English, Maths or Science) per day and then two of the other subjects. Each lesson the teachers will be providing approximately 30 minutes worth of work. There will be a clear minimum amount of work that should be completed. There will also be some work available as an optional extension. We hope that this will help ease the pressure on families.

During this period of school closure we really believe looking after all of our well-being is the top priority. As you know we have a series of recommended activities on our website to help promote good mental health. Our revised timetable includes a session each day that resembles our usual 'tutor' session. During this time a variety of activities will be provided which include assemblies, literacy, PSHE, well-being activities and exercise.

Please see the following timetable that will take effect from Monday 27 April 2020:
